Docket No. RM2020-13

PUBLIC REPRESENTATIVE MOTION
To Revised RM2020-13, PR-LR-1

(November 30, 2020)

The Public Representative hereby moves for permission to file several revised files to RM2020-13 PR-LR-1, originally filed November 25, 2020.

The Public Representative hereby requests permission to modifications to several of the files in RM2020-13, PR-LR-1. He discovered a missing column in an excel spreadsheet, reran all relevant SAS programs in RM2020-13-PR-LR-1, and obtained slightly different results. He repopulated affected spreadsheets. This resulted in very minor modifications in several caculations, although they are *de minimus*.

Because changes have been *de minimus*, he believes this Revised Library Reference will not adversely affect other participants.
